IMPORTANT NOTICE VACUFLUSH SEAL KITS

Since May 2010, Sealand Vacuflush Seal kit has got a new Reference: N° 311462.

If you read any early editions of the Vacuflush toilets exploded views you can find that the kit has the reference No. 316140 or 310677, but these references will now be replaced by the No. 311462.

To avoid confusion we summarize the types of current Seal kits.

For Vacuflush toilets pedal operated:

Ref: 311462

Ref: 316140

The part n° 311462 fits all pedal.flush Vacuflush, Sealand, Dometic and Traveler brand toilets that **do not** include overflow holes inside the toilet bowl..

The part n° 316140 install only in toilets with overflow holes inside the toilet bowl (Models 510, 511, 910, 911, 911-M-28, 980, 2010, 2011).
